SmartMatz™ Custom Rubber Mats

Water damage prevention using our custom spray-in SmartMatz™ allow you to waterproof any region or appliance in your home where water damage is common and costly.

Each mat is created for your specific home by making a template of the site and creating a mat that can hold a gallon or more of leaked water.

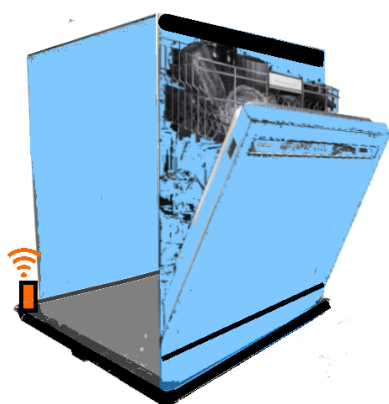

- *Prevent water damage and mold in your home.*
- *Durable, waterproof material.*
- *Custom shapes and sizes.*
- *Get text message alerts when leaks and floods occur.*

Typical Application Sites:

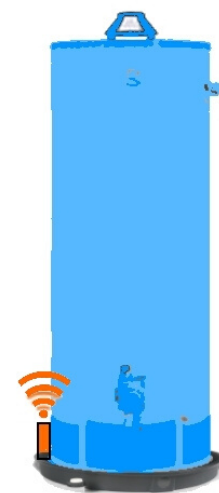

Kitchen & Bathroom
Cabinets

Dishwashers

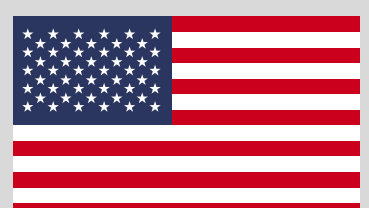

Ice Makers

Water Heaters

Washing Machines

Waterproofing Products & Services

How It Works

Cloud-based Analytics are run on data compiled by the leak detector.

Each SmartMat™ reports leak and diagnostics status to the server every 15 seconds using home wifi.

Your Kitchen Sink SmartMat is reporting a small leak.

Status changes are sent to your phone via text message *and* phone app.
