SmartMatz™ Standard Rubber Mats

Water damage prevention using SmartMatz™ protects regions of the home where water damage is common and costly. SmartMatz™ prevent water leaks, mold and damage to flooring, carpets, and cabinets in the kitchen and bathroom.

- Raised pads keep cabinet contents dry.
- Prevent water damage and mold in your home.
- Contains up to 1 gallon of leaked water.
- Get text message alerts when leaks and floods occur.
- Trim paths to customize mat to the shape of cabinet.

Waterproofing Products & Services

How It Works

Cloud-based Analytics are run on data compiled by the leak detector.

Each SmartMat™ reports leak and diagnostics status to the server every 15 seconds using home wifi.

Your Kitchen Sink SmartMat is reporting a small leak.

Status changes are sent to your phone via text message *and* phone app.
